### Ethnic Restaurants and Takeaways - UK

“The main difference between the under-35s and their older counterparts is that they have a higher tendency to make thoughtful food choices that can help the environment. This includes a willingness to eat ethnic dishes that contain meat substitutes and insects, whereas the over-65s are far more likely to be ...

## January 2020

### Menu Trends - UK

“With more consumers making conscious choices based around their health, animal welfare and environmental concerns, menu offerings that do not reflect their changing values and priorities will fall behind. That means marketing messages which explain how food is prepared and what ingredients it contains should cater to the thoughtful consumer ...
