### B2B Economic Outlook - UK

“Although the UK avoided recession at the end of 2022, growth is likely to be constrained by persistently high inflation and the cost of living crisis. The recent fall in wholesale gas prices should start to reduce bills by the end of H1 and this will somewhat improve the financial ...

### Schools, Universities and Hospitals - UK

“Across public build projects there will be a wider adoption of modern methods of construction to reduce on-site disruption, increase efficiencies and speed up the site programme. Future projects will also see a significant focus on decarbonisation and energy efficiency in order to meet clients’ sustainability targets and support the ...

## February 2023

### B2B Economic Outlook - UK

“The UK, along with other Western economies, is grappling with a perfect storm caused by rocketing fuel prices following the conflict in Ukraine and the inflationary consequences of the post-COVID boom in demand. The sharp rise in inflation seen in 2022 has stimulated interest rate rises which in turn contribute ...
